

Manual QA – E-commerce Website Test Plan

Project Name: Manual QA – E-commerce Website

Objective:

Verify key functionalities work as expected.

Scope:

- **Features to test:**
 1. Login
 2. Add to Cart
 3. Checkout
- **Features not to test:**
 1. Remove from Cart
 2. Checkout with empty cart
 3. Sort products

Environment:

- Google Chrome (latest version)

Approach:

- Manual testing using Test Cases and Bug Reports.
- Test each feature with multiple scenarios (valid/invalid inputs).
- Record results in Excel or Google Sheets.
- Document any bugs in Jira.

Deliverables:

1. **Test Plan document (this file).**
2. **Test Cases sheet (Excel/Google Sheets).**
3. **Bug Reports (Jira).**
4. **Summary Report (PDF) showing test execution and findings.**
